INSTRUCTION AND COACHING: The Golf Instruction staff is under contract and all charge the same rates as a result of this relationship. The combined experience of our staff totals over 75 years of golf teaching and coaching experience. Call the Pro Shop to make arrangements for scheduling golf instruction. Each professional schedules his lesson time after his work schedule. If you have no preference of instructors then we suggest you choose an instructor whose teaching schedule can accommodate your schedule.

CLUB FITTING: We do not stock sets of iron clubs in our Pro Shop because everyone has different physical characteristics and different methods of swinging a golf club. We have club-fitting accounts that offer us preferred shipping dates and will customize their irons at no additional charge; just like the Tour Professionals. Our experienced staff is available to you to make recommendations on golf equipment. We schedule club-fitting appointments during the scheduled Pro Shop business hours. Club fitting is a method of determining the proper golf club specifications that will enable you to derive the most from your golf swing. The fitting takes place on our practice area and involves measuring and recording physical data and also observing ball flight. The fitting generally takes 35 to 45 minutes. **WE DO NOT CHARGE FOR THIS SERVICE AND WE OFFER COMPETITIVE PRICES FOR THE CLUBS WE SELL.** We can order most of the clubs available in the market place.
